CHAD HAMILTON

IT SYSTEMS SPECIALIST | SUPPORT, AUTOMATION & INFRASTRUCTURE

Wylie, TX | Dallas–Fort Worth | (469) 878-2466 | Justchadham@gmail.com

Portfolio: icynatural.github.io/chad-hamilton-portfolio/ | GitHub: github.com/icyNatural

PROFESSIONAL SUMMARY

IT support and systems automation practitioner with customer-facing troubleshooting experience and a field IT internship. Builds and supports Windows/Linux environments, PowerShell tooling, Docker/WSL2 services, networked applications, local AI workstations and recoverable system workflows. Combines structured incident handling with hands-on deployment and documentation.

TECHNICAL SKILLS

Technical support: Windows 10/11, desktop/laptop troubleshooting, account/device connectivity, configuration, service-desk documentation, asset inventory

Infrastructure & automation: PowerShell, Windows Server coursework, Linux, WSL2, Docker/Compose, Ollama, Open WebUI, n8n, backup/restore, logs, process/port diagnostics

Networking & administration: TCP/IP, IPv4/IPv6, DNS, Tailscale, remote access fundamentals, Wireshark, Microsoft 365, Azure fundamentals, Git/GitHub

SELECTED TECHNICAL PROJECTS — INDEPENDENT ENGINEERING, 2026

ICY ALL Registry / Control

- Built a React/TypeScript system registry and paired Node control service with allowlisted operations and Origin/CSRF protections; local audit confirms 100 identities and 68 relationships, with 750 tests recorded passing November 9.

ICY Fabric / Mind

- Built SQLite event APIs, filtered history, SSE and JavaScript/Python SDKs, with a separate privacy-filtered local reasoning service; retained suites show 29 Fabric, 34 Mind and 2 Python passes, separately scoped from synthetic integration proofs.

ICY Discovery Lab

- Built a dependency-free Node laboratory with bounded workers, append-only investigations and portable scene/evidence exchange; retained terrain acceptance records 23 browser checks and a separate Windows launcher record shows 12 checks.

Clip Factory

- Implemented TypeScript media queues, review gates and bounded publishing automation; October 23 documentation records 58 automation and 119 browser passes, distinct from older raw failure/retry receipts.

PROFESSIONAL EXPERIENCE

Mail Handler / Expeditor, Inbound & Outbound Logistics | United States Postal Service | 2020–Present

- Verify drivers, destinations, shipping documents and trailer movements using operational systems and barcode records.

Junior IT Consultant / Field IT Intern | MyIT Services | Plano, TX | May 2025

- Inventory of 90+ computers, monitors and network assets at a client site; independently organized identifying information. Used PowerShell to capture hardware serial numbers, configurations and device specifications for usable technical records.

ClickList Technical Support & Customer Service | Kroger | 2016–2019

- Diagnosed account, application, device and connectivity problems; guided users through steps and escalated unresolved cases.

Junior Technical Support Representative | Suddenlink | 2014–2015

- Troubleshot internet, account and device issues using internal diagnostic systems; recorded findings and guided configuration.

EDUCATION & CREDENTIALS

Collin College — A.A.S. Cybersecurity and A.A.S. Computer Networking coursework, IN PROGRESS (not awarded). Dean's List: Fall 2024, Spring 2025.

College credentials — Cybersecurity Infrastructure Technician Certificate; Entry-Level Network Support Occupational Skills Award.

Certifications / exams — Microsoft Certified: Azure Fundamentals (AZ-900); Microsoft 365 Certified: Fundamentals (MS-900); CompTIA A+ Core 1 exam passed (not full A+ certification); Google Technical Support Fundamentals.
